Information Communication Technology Programme

AGENDA

| | |
|---|---|
| **Mr. David Pogue**<br>*Technology Columnist, The New York Times*<br>Web site: www.davidpogue.com | David Pogue, Yale '85, is the weekly personal-technology columnist for the New York Times and an Emmy award-winning tech correspondent for CBS News. With 3 million books in print, he is also one of the world's bestselling how-to authors. He wrote or co-wrote seven books in the "for Dummies" series (including Macs, Magic, Opera, and Classical Music); in 1999, he launched his own series of complete, funny computer books called the Missing Manual series, which now includes 30 titles.<br>David and his wife Jennifer Pogue, MD, live in Connecticut with their three young children. |
| **Ms. Danese Cooper**<br>*Open Source Diva,*<br>*Open Source Initiative/*<br>*Intel Corporation*<br>Email: danese.cooper@intel.com | Danese Cooper has a 16-year history in the software industry and has long been an advocate for transparent development methodologies. As of March 2005 Danese has joined Intel to give advice on open source projects, investment and support. Danese worked for six years at Sun Microsystems, Inc. on the inception and growth of the various open source projects sponsored by Sun (including OpenOffice.org, java.net and blogs.sun.com) She was Sun's Chief Open Source Evangelist and founded Sun's Open Source Programs Office. She has unique experience implementing open source projects from within a large proprietary company. She joined the OSI Board in December 2001 and currently serves as Secretary and Treasurer. She speaks internationally on Open Source and Licensing issues. |
| **Mr. Richard Stallman**<br>*President,*<br>*Free Software Foundation/*<br>*Founder, GNU Project*<br>Email: rms@gnu.org | Richard Stallman launched the development of the GNU operating system (see www.gnu.org) in 1984. GNU is free software: everyone has the freedom to copy it and redistribute it, as well as to make changes either large or small. The GNU/Linux system, basically the GNU operating system with Linux added, is used on tens of millions of computers today. Stallman has received the ACM Grace Hopper Award, a MacArthur Foundation fellowship, the Electronic Frontier Foundation's Pioneer award, and the Takeda Award for Social/Economic Betterment, as well as several honorary doctorates. |
| **Mr. Glenn McKnight**<br>*Director of Operations,*<br>*Linux Professional Institute*<br>Email: glenn@lpi.org | Glenn McKnight has a Masters in Social Anthropology and has worked for the past 30 years in private and non profit enterprises in Canada and Internationally. For the past three years Glenn has worked with the Linux Professional Institute as Director of Operations working to strengthen the adoption of the global leading Linux certification around the world. He has also worked with sustainable development projects with an onus on using appropriate technologies. |
